Kennel Supplies For Every Kennel Owner

Welcome

All of us here at Bird In Hand Pet Structures want to thank you as a customer (and a friend) for your past and future business. As partners in the dog breeding & boarding industry we understand the challenges that come with the profession.

As kennel regulations continue to change, we promise to do our best with innovations and solutions that will best meet the need. We always strive to have the products in stock, so we can get them to you quickly; we understand you often need them yesterday!

Take a look at our new catalog. See for yourself what we have to offer. If you have a need you can't find a solution for give our sales team a call. We'll do our best to get what you need or point you in the right direction.

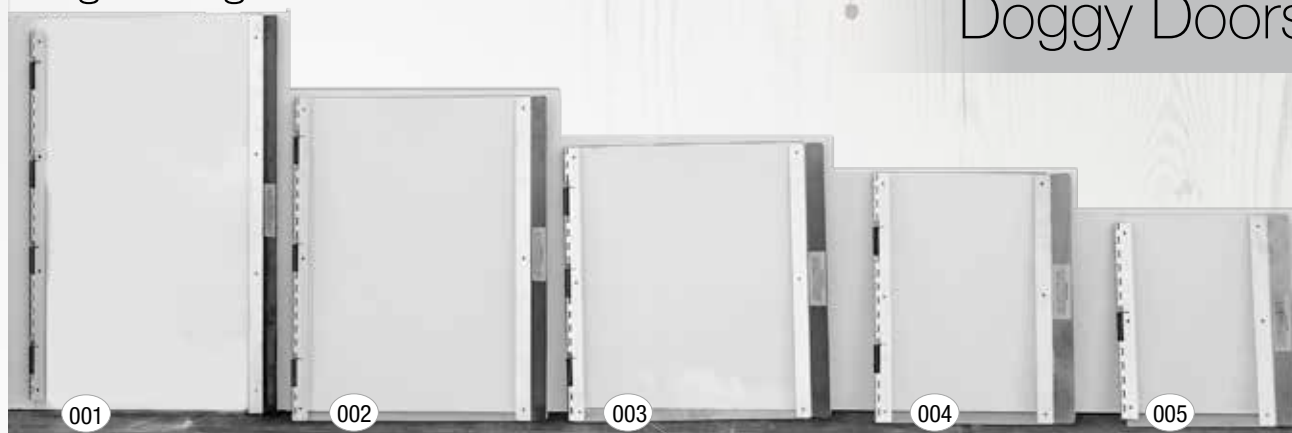

Last of all, remember we build complete, custom designed kennels outfitted to your specs. Our goal is to provide you with great solutions, quality product & friendly service.

 12-v power consumption is 2 watts per hr
 6' hose and regulator included
 1 yr limited warranty

Whelping

Design your own whelping box with one of our affordable whelping nests.

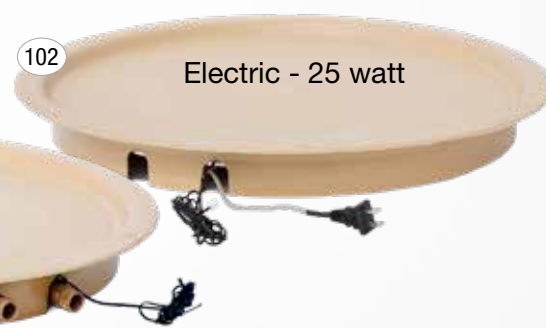

Control Box

Multiple zones in one custom built control box off of the same heat source.

Save More Puppies Without The Stress

Accu Temp whelping nests are the key to successfully raising puppies. Studies show that keeping the temp consistently warm is very critical in the first two weeks of a puppy's life. With Accu Temp whelping nests you can do just that with ease and peace of mind. The built in sensor and the user friendly digital thermostat gives you finger tip control over the temp. They can be used with hot water, electric or the Accu-Temp whelping heater.

Electric EZS Whelper Thermostat controlled

Take the best and leave the rest!

If you're in the market for a whelping box, the safety of this one versus the competition is another aspect you cannot afford to ignore. There are zero open flames or gas burners.

"I'm a picky customer, and I picked the EZS Whelper!"

-Satisfied Customer
